

Internship in the Marine Operations Department of Century Bulk Carriers

Century Bulk Carriers Management Co. is an independent ship management company renowned for its management and operation of a modern, diverse fleet of bulk carriers on a global scale. At the core of Century's management philosophy is the commitment to cultivate a highly skilled and motivated workforce both onshore and at sea, all while upholding strict safety and preventive maintenance standards. Century's fleet of vessels trade under short-term and long-term time charters, as well as voyage charters. The company's bulk carriers carry dry cargoes such as coal, iron ore, grains, and finished products such as steel coils worldwide.

Throughout your internship within the Technical Team of the Marine Operations Department, you will:

- Communicate with suppliers to obtain quotations for spare parts as requested by vessels under management.
- Collaborate with the Technical Superintendent and the Technical Manager to evaluate spare part quotations and proceed with orders accordingly.
- Monitor the progress of spares part orders and their delivery on board.
- Verify and reconcile invoices with relevant documentation, including approvals, quotations, and receipts.

What we are looking for:

- Commitment to providing excellent quality work.
- Confident and positive attitude, focused on teamwork and communication.
- Good knowledge of Office365.
- Fluency in English, both verbal and written.

Students interested in the position should send their CV to hr@chandris-group.gr, or reach out to the HR Department at 210 4584018.
